### The impact of Gender Stereotypes on Teenager Career Choices.

In our day Gender Stereotypes stay main a more and more. In a social media, in a TV, in a work-from every where speaking about this. But it's really so main and favorite?

In my view, this problem made very strong impact for our teenagers life. And in first step to answer to this problem - it destroy all of gender stereotypes. Everybody must can work to anywhere! If man want to teach children a music or woman want to work in the coal-mines, why they can't do it? But the main - woman would calm a same money and do the same work, that a man. And too one moment - skin color. Rasmism - it's a very popular problem, (while) I think, if is all people being a tolerant and friendship about each other, then our world will better and gender stereotypes ~~was~~ will destroyed.
